**Annual Education Results Report**  
**2018-2019**

**Three Year Education Plan**  
**2018-2021**

## Message from the Principal,

St. Joseph Catholic School's plan for the three years commencing September 1, 2018 was prepared by school administration in accordance with the responsibilities under the School Act and the Government Accountability Act. St. Joseph Catholic School is committed to achieving the results laid out in this Education Plan.

After reviewing our school's Alberta Education Accountability Pillar 2018 Survey results as well as our Evergreen CSRD Survey, I am pleased to report a continued high level of satisfaction in most areas from the St. Joseph Catholic School stakeholders over the past year. Due to the sustained satisfaction level, we will be continuing with many of our existing goals and strategies. We are also developing strategies to address areas where we can improve.

I believe St. Joseph staff and the current leadership team will be able to offer different ideas and perspectives, since we have varied and vast experiences in the field of education, including experienced, returning staff members. In conjunction with our team leaders at St. Joseph, including our Counselor, Instructional Coach and Inclusive Education Coordinator, we hope to continue to grow and learn, looking at new initiatives that meet our students' needs.

At St. Joseph Catholic School, we will continue to have teachers self-assess their teaching practises and meet in their Professional Faith Based Learning Communities to continue their professional learning and share best practices with one another. On the following page, I have included our School Improvement Plan Goals.

Mr. Dave Sheehan  
Principal

## **St. Joseph Catholic School Improvement Plan/Goals (2018-2019)**

### **Goal #1 – Develop an understanding and awareness of Indigenous peoples’ history, culture and significance.**

Strategies:

1. Build a stronger knowledge and pedagogical base for staff through support and instruction from ECSRD Indigenous Education Coach and Indigenous Education Team.
2. Participate in ECSRD Indigenous Education professional development activities.
3. Increase students’ awareness of indigenous culture via direct instruction using available resources, guest instructors and elders and regular acknowledgement of indigenous lands and peoples in our community.
4. Access support through Indigenous Education School Lead & Committee, Instructional Coach and ECSRD Indigenous Education Coach.

### **Goal #2 – Promote the emotional and mental well-being of all students.**

Strategies:

1. Employ Growth Mindset and Mindfulness strategies to increase student emotional, social and academic confidence.
2. Use instructional strategies and resources previously gained through Evergreen Wellness Team support.
3. Teach and reinforce strategies for emotional regulation and conflict resolution through programs such as Kimochis, Zones of Regulation and WITS.
4. Access support through school Counsellor and Instructional Coach.

### **Goal # 3 – Maintain a strong faith focus within our school and our larger school community.**

Strategies:

1. Maintain and foster faith connections between school, home and parish (invitations to liturgies, liturgies/mass at school, visits to the parish, clergy visits to school).
2. Full implementation of the new Religious Studies program for Gr. 1-4.
3. Create tangible connections to our school theme “Listen to God’s Word With Joy”.
4. Foster relationship with Sacramental Preparation team at Holy Trinity Parish and expand their presence in the school.
5. Explore age appropriate service projects at all grade levels within the school and community.

Notes:

1. Data values have been suppressed where the number of respondents/students is fewer than 6. Suppression is marked with an asterisk (\*).
2. Overall evaluations can only be calculated if both improvement and achievement evaluations are available.
3. Results for the ACOL measures are available in the detailed report: see "ACOL Measures" in the Table of Contents.
4. Student participation in the survey was impacted between 2014 and 2017 due to the number of students responding through the OurSCHOOL/TTFM (Tell Them From Me) survey tool.
5. Aggregated PAT results are based upon a weighted average of percent meeting standards (Acceptable, Excellence). The weights are the number of students enrolled in each course. Courses included: English Language Arts (Grades 6, 9, 9 KAE); Français (Grades 6, 9); French Language Arts (Grades 6, 9); Mathematics (6, 9, 9 KAE); Science (Grades 6, 9, 9 KAE); and Social Studies (Grades 6, 9, 9 KAE).
6. Participation in Provincial Achievement Tests was impacted by the fires in May to June 2016. Caution should be used when interpreting trends over time for the province and those school authorities affected by this event.
7. Aggregated Diploma results are a weighted average of percent meeting standards (Acceptable, Excellence) on Diploma Examinations. The weights are the number of students writing the Diploma Examination for each course. Courses included: English Language Arts 30-1; English Language Arts 30-2; French Language Arts 30-1; Français 30-1; Mathematics 30-1; Mathematics 30-2; Chemistry 30; Physics 30; Biology 30; Science 30; Social Studies 30-1; and Social Studies 30-2.
8. Caution should be used when interpreting evaluations and results over time for Mathematics 30-1/30-2, as equating was not in place until the 2016/17 school year. Alberta Education does not comment on province wide trends until it has five years of equated examination data.
9. Participation in Diploma Examinations was impacted by the fires in May to June 2016. Caution should be used when interpreting trends over time for the province and those school authorities affected by this event.
10. Weighting of school-awarded marks in diploma courses increased from 50% to 70% in the 2015/2016 school year. Caution should be used when interpreting trends over time.
11. Due to the change from previous data source systems to Provincial Approach to Student Information (PASI), Rutherford Scholarship Eligibility Rate results prior to 2015 are not available.
12. 2016 results for the 3-year High School Completion and Diploma Examination Participation Rates have been adjusted to reflect the correction of the Grade 10 cohort.

## Measure Evaluation Reference

### Achievement Evaluation

Achievement evaluation is based upon a comparison of Current Year data to a set of standards which remain consistent over time. The Standards are calculated by taking the 3 year average of baseline data for each measure across all school jurisdictions and calculating the 5th, 25th, 75th and 95th percentiles. Once calculated, these standards remain in place from year to year to allow for consistent planning and evaluation.

The table below shows the range of values defining the 5 achievement evaluation levels for each measure.

Measure	Very Low	Low	Intermediate	High	Very High
Safe and Caring	0.00 - 77.62	77.62 - 81.05	81.05 - 84.50	84.50 - 88.03	88.03 - 100.00

School Improvement	0.00 - 65.25	65.25 - 70.85	70.85 - 76.28	76.28 - 80.41	80.41 - 100.00

Notes:

- 1) For all measures except Drop Out Rate: The range of values at each evaluation level is interpreted as greater than or equal to the lower value, and less than the higher value. For the Very High evaluation level, values range from greater than or equal to the lower value to 100%.
- 2) Drop Out Rate measure: As "Drop Out Rate" is inverse to most measures (i.e. lower values are "better"), the range of values at each evaluation level is interpreted as greater than the lower value and less than or equal to the higher value. For the Very High evaluation level, values range from 0% to less than or equal to the higher value.

### Improvement Table

For each jurisdiction, improvement evaluation consists of comparing the Current Year result for each measure with the previous three-year average. A chi-square statistical test is used to determine the significance of the improvement. This test takes into account the size of the jurisdiction in the calculation to make improvement evaluation fair across jurisdictions of different sizes.

The table below shows the definition of the 5 improvement evaluation levels based upon the chi-square result.

Evaluation Category	Chi-Square Range
Declined Significantly	3.84 + (current < previous 3-year average)
Declined	1.00 - 3.83 (current < previous 3-year average)
Maintained	less than 1.00
Improved	1.00 - 3.83 (current > previous 3-year average)
Improved Significantly	3.84 + (current > previous 3-year average)

### Overall Evaluation Table

The overall evaluation combines the Achievement Evaluation and the Improvement Evaluation. The table below illustrates how the Achievement and Improvement evaluations are combined to get the overall evaluation.

Improvement	Achievement				
	Very High	High	Intermediate	Low	Very Low
Improved Significantly	Excellent	Good	Good	Good	Acceptable
Improved	Excellent	Good	Good	Acceptable	Issue
Maintained	Excellent	Good	Acceptable	Issue	Concern
Declined	Good	Acceptable	Issue	Issue	Concern
Declined Significantly	Acceptable	Issue	Issue	Concern	Concern

### Category Evaluation

The category evaluation is an average of the Overall Evaluation of the measures that make up the category. For the purpose of the calculation, consider an Overall Evaluation of Excellent to be 2, Good to be 1, Acceptable to be 0, Issue to be -1, and Concern to be -2. The simple average (mean) of these values rounded to the nearest integer produces the Category Evaluation value. This is converted back to a colour using the same scale above (e.g. 2=Excellent, 1=Good, 0=Intermediate, -1=Issue, -2=Concern)

## Outcome One: Alberta's students are successful

Performance Measure	Results (in percentages)					Target	Evaluation			Targets		
	2014	2015	2016	2017	2018	2018	Achievement	Improvement	Overall	2019	2020	2021
Percentage of teachers, parents and students who are satisfied that students model the characteristics of active citizenship.	90.8	93.5	87.1	89.0	88.0	90.0	Very High	Maintained	Excellent			
Percentage of teachers and parents who agree that students are taught attitudes and behaviours that will make them successful at work when they finish school.	81.3	76.2	77.1	88.0	83.0	88.0	High	Maintained	Good			

### Comment on Results

*(an assessment of progress toward achieving the target)*

- The results show a decrease in the percentage of parent satisfaction largely due to 20% of parents responding "Don't Know" to the questions.
- Student satisfaction that "students model the characteristics of active citizenship" decreased from 75.2% in 2016 to 73.9% in 2018 which is significantly less than the level of parent and teacher satisfaction. Upon inspection, 20-25% of students responded "Don't Know" to questions in this category.

### Strategies

- One of our School Goals is building on our work in the area of Growth Mindsets with students to include mindfulness strategies that are transferrable to all life situations.
- At our School Council meetings and in our Monthly Newsletter and weekly Principal's Message, we will explain programming and learning initiatives to parents, giving examples of the instruction their children are experiencing and sharing ideas for how they can encourage and reinforce at home. These platforms will help us explain to parents and students how our programming leads to success at work when students finish school and characteristics of active citizenship.
- To increase student satisfaction, we have initiated a Leaders In Training (LIT) Team for our Grade 4 students. LIT Team gives students opportunities to have leadership roles at recess, on the playground and in organizing and promoting school-wide activities and events.
- We have student supports in place such as: Inclusive Education Coordinator – works directly in classrooms with students and teachers while also providing support for a variety of student needs and collaborates with parents on a regular basis to keep them involved in student progress), School Counselor (works directly with students and teachers to provide social and emotional support as needed), Success In School Coach (works directly to provide support to families and connect them with outside agencies while supporting school interventions)
- Parish Connections - we are committed to continuing to work in conjunction with our parish to instill values of the Catholic faith in all of our students. Our students attend masses throughout the year and we invite our parish priests to the school for a variety of occasions such as Reconciliation, liturgies, and Welcome Back Barbeque. Additionally, we continue to support the sacraments within the school with the whole school community.

### Notes:

1. Data values have been suppressed where the number of respondents/students is fewer than 6. Suppression is marked with an asterisk (\*).
2. Student participation in the survey was impacted between 2014 and 2017 due to the number of students responding through the OurSCHOOL/TFM (Tell Them From Me) survey tool.

## Outcome Two: Alberta’s education system supports First Nations, Métis, and Inuit students’ success

### Comment on Results

(an assessment of progress toward achieving the target)

- Our school does not have evaluation results for FNMI students.

### Strategies

Although we do not have evaluation results, we are providing supports for our Indigenous students including:

- ensuring counselling time is available for students and guidance for parents.
- development of a Diversity Tool Kit with our ATA Local for teachers to use as Indigenous Education support.
- providing continued support through purchase of resources in a variety of subject areas to promote positive culture differences and similarities within the school community.

We are also participating in other initiatives to help staff and students increase their awareness and understanding of indigenous groups historically and how policies and events have impacted indigenous societies and cultures.

- One of our school goals this year is to “Develop an understanding and awareness of Indigenous peoples’ history, culture and significance.”
- Participation in Orange Shirt Day along with lessons and discussion about the effects of residential schools.
- Developing a Land Acknowledgment which is referenced at all school events and meetings.
- Working closely with our school division Indigenous Education Coach to increase our staff’s awareness and understanding of Indigenous history, stories, and relations.
- One staff member is representing our school on our school division’s Indigenous Education Committee to learn and share information and strategies.
- Identifying PD opportunities for staff to learn more about working with indigenous students and opportunities in our Programs of Study to directly instruct Indigenous content, history and perspective.
- Inviting guest speakers, local partners and developing activities to promote positive cultural differences and similarities within the school community.

### Notes:

1. Data values have been suppressed where the number of respondents/students is fewer than 6. Suppression is marked with an asterisk (\*).
2. Overall evaluations can only be calculated if both improvement and achievement evaluations are available.
3. Diploma Examination Participation, High School Completion and High school to Post-secondary Transition rates are based upon a cohort of grade 10 students who are tracked over time.
4. Weighting of school-awarded marks in diploma courses increased from 50% to 70% in the 2015/2016 school year. Caution should be used when interpreting trends over time.
5. Due to the change from previous data source systems to Provincial Approach to Student Information (PASI), Rutherford Scholarship Eligibility Rate results prior to 2015 are not available.
6. Student demographic data used when calculating Student Outcome Measures and Provincial Achievement Tests results was updated in October 2016. This impacted results based on enrolment (e.g., self-identified First Nations, Metis and Inuit), exception (e.g., learning disability) and grant program codes (e.g., English as Second Language students) reported in previous years.
7. 2016 results for the 3-year High School Completion and Diploma Examination Participation Rates have been adjusted to reflect the correction of the Grade 10 cohort.

## Outcome Three: Alberta's education system respects diversity and promotes inclusion

Performance Measure	Results (in percentages)					Target	Evaluation			Targets		
	2014	2015	2016	2017	2018	2018	Achievement	Improvement	Overall	2019	2020	2021
Percentage of teacher, parent and student agreement that: students are safe at school, are learning the importance of caring for others, are learning respect for others and are treated fairly in school.	91.9	94.6	90.2	91.7	92.6	93.0	Very High	Maintained	Excellent			

### Comment on Results

(an assessment of progress toward achieving the target)

- As a school, we put a priority on creating safe learning environments for students. The results above indicate students, parents and teachers feel our school is safe and continues to address issues positively as they arise.
- Our overall result in this outcome is very strong. It is interesting to note that student satisfaction is lower than parent and teacher satisfaction. At closer inspection, on several questions for this category, many students responded "Don't Know". Student responses to the question: "Do other students treat you well?" were 15% - "No" and 21% - "Don't Know"

### Strategies

- We have maintained our counselling services through our 0.63 FTE counsellor.
  - To ensure success in our inclusive classrooms, our 0.5 FTE Inclusive Education Coordinator provides supports to students, teachers and parents for students who may have difficulty in learning environments.
  - We are providing support for English Language Learners through a teacher in an ELL support role to support teachers and students to ensure student success in inclusive learning environments.
  - We are putting a stronger emphasis on our school-wide WITS program to empower students with strategies to resolve conflicts. We will continue to work with our grade 4 students to take a leadership role for our younger students as Leaders in Training (LIT Team) – helping younger students problem solve on the playground, instructing sport and recreation skills, promoting school wide activities and social justice events.
  - Cst. Nasheim will continue to support us as our School Resource Officer and deliver programs such as Halloween Safety and our WITS assembly.
  - To help students recognize their level of safety, we will acknowledge and recognize students on our SJTV broadcasts for being safe, caring, respectful and treating others fairly.
- Our Instructional Coach provides support to teachers in pedagogical strategies to build on the competencies of students as engaged thinkers, ethical citizens with an entrepreneurial spirit in the 21<sup>st</sup> century.
- In our School Division Survey, we can add an opportunity for students to explain which situations feel unsafe and how their feelings of unsafety could be addressed.

### Notes:

1. Data values have been suppressed where the number of respondents/students is fewer than 6. Suppression is marked with an asterisk (\*).
2. Student participation in the survey was impacted between 2014 and 2017 due to the number of students responding through the OurSCHOOL/TFM (Tell Them From Me) survey tool.

**Outcome Four: Alberta has excellent teachers, and school and school authority leaders**

Performance Measure	Results (in percentages)					Target	Evaluation			Targets		
	2014	2015	2016	2017	2018	2018	Achievement	Improvement	Overall	2019	2020	2021
Percentage of teachers, parents and students satisfied with the opportunity for students to receive a broad program of studies including fine arts, career, technology, and health and physical education.	88.6	88.7	82.8	88.4	85.9	88.0	Very High	Maintained	Excellent			

**Comment on Results**  
*(an assessment of progress toward achieving the target)*

- The overall percentage of satisfaction has increased to levels we had been seeing in 2015 and 2016. In particular, parent levels of satisfaction have increased significantly. These are strong results that reflect our efforts to provide a quality education to students in our K-4 school.
- The percentage of satisfied parents is similar to the previous year with 26% responding “Don’t Know” to questions about opportunities for their children engage in Drama instruction. Previously, we noted it may be due to a communication issue between school and home.

**Strategies**

It appears that our parent community is unaware of some of the curricular opportunities their children have. To address this:  
 We employed several intentional strategies last year that appear to have had an impact. We intend to continue these strategies:

- Teachers will use classroom newsletters, student reports and parent conferences as opportunities to make parents aware of the many curricular opportunities their children have at school.
- Areas such as drama and use of technology that are embedded within the program of studies and learning of core subject areas will be given more emphasis. Student projects and achievement with these topics (projects involving technology, demonstrations of student learning through the use of technology, dramatic performances at our Christmas concert, Seniors’ visits, and Volunteer Tea) will be highlighted to parents.
- Our school choir will have an active role in our school liturgies, Christmas concerts, and in our community at the Copper Sky Lodge and in Holy Trinity Parish at our Grade 4 Bible Mass and Catholic Education Sunday.

In addition, we have also:

- continued a Professional Faith Learning Community for our Music teachers that meets monthly to improve instruction and learning and plan/prepare opportunities for student performances.
- Enhanced our Health instruction by embedding school-wide instruction for self-regulation strategies such as Zones of Regulation.
- Invited professional performers to provide dramatic and dance performances and workshops for students.

Notes:

- Data values have been suppressed where the number of respondents/students is fewer than 6. Suppression is marked with an asterisk (\*).
- Student participation in the survey was impacted between 2014 and 2017 due to the number of students responding through the OurSCHOOL/TFM (Tell Them From Me) survey tool.

## Outcome Five: Alberta’s education system is well governed and managed

Performance Measure	Results (in percentages)					Target	Evaluation			Targets		
	2014	2015	2016	2017	2018	2018	Achievement	Improvement	Overall	2019	2020	2021
Percentage of teachers, parents and students indicating that their school and schools in their jurisdiction have improved or stayed the same the last three years.	95.1	91.4	79.5	90.4	87.6		Very High	Maintained	Excellent			
Percentage of teachers and parents satisfied with parental involvement in decisions about their child's education.	90.4	86.6	76.8	86.6	82.5		Very High	Maintained	Excellent			
Percentage of teachers, parents and students satisfied with the overall quality of basic education.	97.7	96.4	91.8	96.6	95.8		Very High	Maintained	Excellent			

### Comment on Results

(an assessment of progress toward achieving the target)

- There is a notable increase in the level of satisfaction in responses to all of the questions in this outcome.
- There was a dramatic increase in parent satisfaction with the school and school jurisdiction improving or staying the same in the past 3 years (57.1% to 96%)
- With many more parents completing the survey this year (25) than last year (14), the results are likely more representative of our parent level of satisfaction.

### Strategies

- We will continue to invite parents to participate in discussions about their children’s education and progress. We schedule parent conferences twice each year and parents are also able to schedule appointments with teachers when necessary.
  - We are focusing on areas for improvement within our School Improvement Plan, particularly within Numeracy and student emotional and mental well-being. Both of these initiatives are being supported with professional learning opportunities and instructional support.
  - Supports are in place to help staff improve their instruction include an Instructional Coach (instructional strategies) and Learning With Technology Coach (assisting with student use of technology to support, extend and accelerate learning).
  - We are participating in the Agile Schools Community to learn and practice strategies for implementing meaningful change and improvement in teacher instruction and student learning. Agile Schools is a group of small, agile school communities being led in the change process by Simon Breakspear and supported by the ATA.
  - We have embedded the SPRINT process as a means of using student performance data and evidence to identify areas we can target instruction and improve student learning. Each month, our SPRINT data is collected, reviewed and targets are adjusted.
- Our School Council has continued to support school initiatives through sponsorship for school events (school dances, school apparel, fun lunch).
- Continued communication between school and home – weekly principal email messages, teacher emails/See Saw APP, school website information and calendar, teacher pages, student agendas, and Twitter accounts to promote school events.

### Notes:

1. Data values have been suppressed where the number of respondents/students is fewer than 6. Suppression is marked with an asterisk (\*).
2. Student participation in the survey was impacted between 2014 and 2017 due to the number of students responding through the OurSCHOOL/TFM (Tell Them From Me) survey tool.

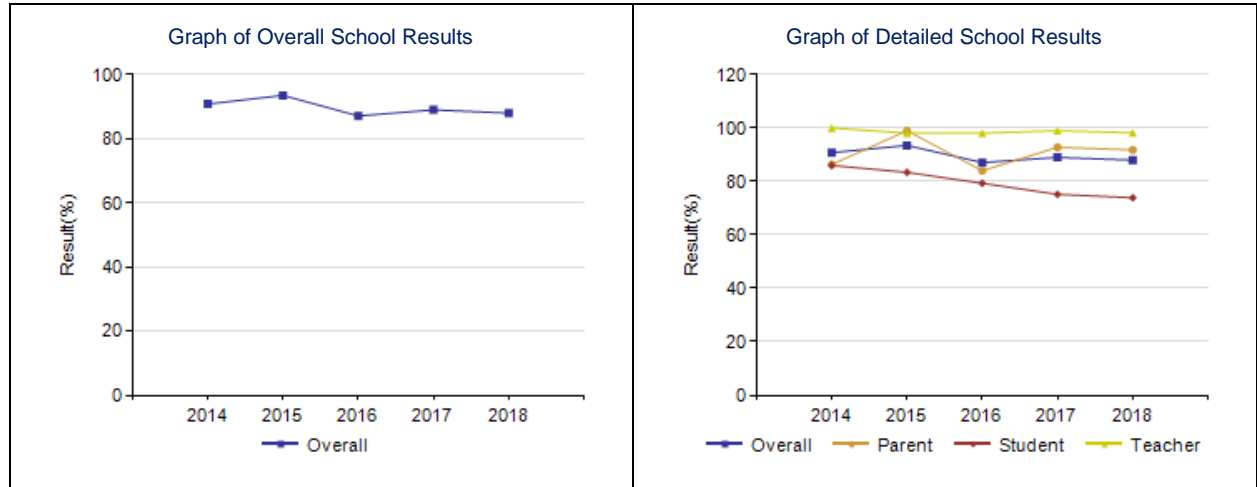

### **APPENDIX – Measure Details**

The following pages include tables and graphs that provide detailed data for the performance measures. Schools may include these under each measure/outcome to provide context and help in interpreting the results.

**Citizenship – Measure Details**
